

FAMILY FAITH BUILDING ADVENTURES
Week Four: David and Goliath

from freebibleimages.org

Bible Story: 1 Samuel 17

Read the story together and/or watch Pastor Kim's retelling.

Discussion Ideas:

- Why do you think David was successful in his quest?
- What are some hard things you have had to do?
- How does God help us to do hard things?

Activity: Make and Use a Slingshot

Using any materials you can find, make a slingshot. (If you need ideas, a quick google search will reveal many!) Use your slingshot to shoot a marshmallow, cork, cotton ball, or some other soft object at a target. Pretend that the target is something that is difficult for you. As you get ready to shoot your slingshot, say a short prayer asking God to help you do the thing that is difficult for you.

- Did you hit your target? (Sometimes we have to try more than once to achieve our goal.)
- How far did your slingshot propel the object?
- How could you modify your slingshot to propel the object even farther?

Prayer:

God, grant me the serenity to accept the things I cannot change; courage to change the things I can; and wisdom to know the difference. Amen

Don't forget to send a picture of your family with your slingshots via email to Kayleigh at: admin@lcosva.org
